PurePro™

Flexible Braided Stainless Steel Water Supply Connectors for Water Heaters

Sizes: 5/8" to 7/8" (16 to 22mm)

PurePro Flexible Braided Stainless Steel Water Supply Connectors for Water Heaters are used in residential and commercial applications, specifically for water heater hookups. These connectors provide full flow capacity and protection from vibration and bursting under pressure surges and seismic activity. PurePro connectors consist of Uniprene® tubing jacketed with braided stainless steel, and permanently attached, brass, compression end fittings. Various end connections are available.

Features

- Tubing
 - Uniprene® body
 - Braided stainless steel jacket
- Brass compression end fittings
- NSF61 approved hoses for safer drinking water
- No tube cutting or bending
- No soldering
- No extra adapters, fittings, or couplings required

Standards

NSF Listed

UPC Listed

Approvals

Hoses are NSF61 approved for safer drinking water

Pressure-Temperature

Maximum Working Pressure: 125psi (8.6 bar)

Maximum Temperature: 180°F (82°C)
